

How this list came about-

"If the truth won't do, then something is wrong!"

Those were the furious words of my grandfather to my Mother. I had walked in from joyfully stuffing my face with red raspberries in the garden, straight into "war zone"! My gentle grandfather in a fury, his hand raised! Mom was just beginning to shrink back away from him. They saw me and quickly sent me away. But it was too late, the scene and the words were seared into my 5-year-old brain. That was over 55 years ago, but I still remember it clearly. My grandfather was a minister, one very short step away from God in my young mind. It was one of those life changing moments. It is still rare for me to tell a lie. I never found out what my Mother's lie was.

As I child, I suffered a traumatic head injury. Another child tried to murder me with a hammer. I was left with frequent migraines. At 19, like many rebellious teens, I tried cannabis. It took about a year for me to make the connection between using cannabis and the absence of my normally frequent migraines. I have used cannabis ever since.

I am an avid reader. While perusing an old book on herbal medicine, I read how the little old ladies of Mexico made and used a cannabis/tequila rub on their arthritic hands. Then I met Joey, an epileptic musician. He told me another interesting fact- when he had pot he could cut his medication in half! On a camping trip years later, I smelled an unmistakable odor. Following my nose, I was totally shocked to find a grandmotherly lady in her 70s puffing away on a delicate oriental pipe. "Parkinson's. And the pot's way cheaper than the pills!" Her nephew kept her well supplied, she said. We had a nice chat about various medical uses of cannabis.

Epilepsy, Parkinson's, arthritis, and my migraines! What else was it good for? Yet every news article on cannabis that I saw, claimed one new horror after another. Men grew breasts and were impotent. Women became sterile, or miscarried. It made you crazy and murderous. Made you lazy and do nothing. It caused cancer and heart attacks...What I had learned on my own and from others and what I was being told in the press were so different!

What was the truth? I began researching. I printed the first studies up and kept them in a notebook, just as a personal reference. The notebook quickly filled. I started a Word file of the URLs and on July 30 2007, I posted it. It continues to grow.

Here's some of what I have found. All I've done is copy the URLs, then put them all in some semblance order for everyone to use as a reference. Please feel free to share this list with anyone who could benefit from it.

PATENTS RELATED TO CANNABIS

US Patent 7344736 - Extraction of pharmaceutically active components from plant materials
<http://www.patentstorm.us/patents/7344736/fulltext.html>

US Patent 6630507 - Cannabinoids as antioxidants and neuroprotectants
<http://www.patentstorm.us/patents/6630507.html>

US Patent 6328992 - Cannabinoid patch and method for cannabis transdermal delivery

<http://www.patentstorm.us/patents/6328992.html>

US Patent 6949582 - Method of relieving analgesia and reducing inflammation using a cannabinoid delivery topical liniment

<http://www.patentstorm.us/patents/6949582/fulltext.html>

US Patent 7402686 - Cannabinoid crystalline derivatives and process of cannabinoid purification

<http://www.patentstorm.us/patents/7402686/fulltext.html>

US Patent 6713048 - Δ^9 tetrahydrocannabinol (Δ^9 THC) solution metered dose inhalers and methods of use

<http://www.patentstorm.us/patents/6713048/fulltext.html>

US Patent 6974568 - Treatment for cough

<http://www.patentstorm.us/patents/6974568/fulltext.html>

US Patent 7088914 - Device, method and resistive element for vaporizing a medicament

<http://www.patentstorm.us/patents/7088914/fulltext.html>

US Patent 7399872 - Conversion of CBD to Δ -THC and Δ -THC

<http://www.patentstorm.us/patents/7399872/fulltext.html>

US Patent 6383513 - Compositions comprising cannabinoids (nasal spray)

<http://www.patentstorm.us/patents/6383513/fulltext.html>

US Patent 6132762 - Transcutaneous application of marijuana

<http://www.patentstorm.us/patents/6132762.html>

US Patent 4189491 - Tetrahydrocannabinol in a method of treating glaucoma

<http://www.patentstorm.us/patents/4189491.html>

US Patent Application 20060242899 - Method of cultivating plants

<http://www.freepatentsonline.com/y2006/0242899.html>

US Patent 7109245 - Vasoconstrictor cannabinoid analogs

<http://www.patentstorm.us/patents/7109245/fulltext.html>

Smoked marijuana and oral delta-9-THC on specific airway conductance in asthmatic subjects
<http://www.ukcia.org/research/SmokedAndOralInAsthmatic.php>

Delta(9)-tetrahydrocannabinol in patients with recurrent glioblastoma multiforme.
http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=193

9-Tetrahydrocannabinol Inhibits Cell Cycle Progression in Human Breast Cancer
<http://cancerres.aacrjournals.org/cgi/content/abstract/66/13/6615>

THC and prochlorperazine effective in reducing vomiting in women following breast surgery
http://www.cannabis-med.org/english/bulletin/ww_en_db_cannabis_artikel.php?id=219#1

{Delta}9-Tetrahydrocannabinol-Induced Apoptosis in Jurkat Leukemia T Cells
<http://mcr.aacrjournals.org/cgi/content/abstract/4/8/549>

Delta(9)-THC) prevents cerebral infarction

http://www.unboundmedicine.com/medline/ebm/record/17289082/abstract/Delta_9_tetrahydrocannabinol_Delta_9_THC_prevents_cerebral_infarction_via_hypothalamic_independent_hypothermia

Medical marijuana: study shows that THC slows atherosclerosis

http://thenexthurrah.typepad.com/the_next_hurrah/2005/04/medical_marijuana.html

Delta-9-tetrahydrocannabinol shows antispastic and analgesic effects

http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=10

The effect of delta-9-THC on human spasticity.

http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=154

The treatment of spasticity with D9-THC) in patients with spinal cord injury

http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=79

Delta-9-THC as an alternative therapy for overactive bladders in spinal cord injury

http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=102

The effect of orally and rectally administered delta-9-tetrahydrocannabinol on spasticity

http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=12

The treatment of spasticity with Delta(9)-tetrahydrocannabinol in persons with spinal cord injury.

http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=166

Delta-9-Tetrahydrocannabinol-Induced Effects on Psychosis and Cognition

http://www.unboundmedicine.com/medline/ebm/record/16936704/abstract/An_Experimental_Study_of_Catechol_O_Methyltransferase_Val_158_Met_Moderation_of_Delta_9_Tetrahydrocannabinol_Induced_Effects_on_Psychosis_and_Cognition

Marijuana as a therapeutic agent for muscle spasm or spasticity.

http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=53

Analgesic effect of delta-9-tetrahydrocannabinol.

http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=16

The analgesic properties of delta-9-tetrahydrocannabinol and codeine.

http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=17

The perceived effects of smoked cannabis on patients with multiple sclerosis.

http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=13

Cannabis use for chronic non-cancer pain

http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=91

Tetrahydrocannabinol for treatment of chronic pain

http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=147

Delta-9-THC based monotherapy in fibromyalgia patients

http://www.cannabis-med.org/studies/ww_en_db_study_show.php?s_id=194

Delta(9)-Tetrahydrocannabinol protects hippocampal neurons from excitotoxicity

http://www.unboundmedicine.com/medline/ebm/record/17140550/abstract/Delta_9_Tetrahydrocannabinol_protects_hippocampal_neurons_from_excitotoxicity

Differential Effects of THC or CBD-rich Cannabis Extracts on Working Memory in Rats

<http://www.ukcia.org/research/THCCBDWorkingMemory.pdf>

Oral vs. Inhaled Cannabinoids for Nausea/Vomiting from Cancer Chemotherapy

<http://www.medmjscience.org/Pages/science/pierson.html>

Delta-9-Tetrahydrocannabinol as an Antiemetic in Cancer Patients Receiving High-Dose Methotrexate

<http://www.medmjscience.org/Pages/science/chang.html>

Neurocognitive performance during acute THC intoxication in heavy and occasional cannabis users.

http://www.ncbi.nlm.nih.gov/pubmed/18719045?ordinalpos=44&itool=EntrezSystem2.PEntrez.Pubmed.Pubmed_ResultsPanel.Pubmed_DefaultReportPanel.Pubmed_RVDocSum

Divergent effects of cannabidiol on the discriminative stimulus and place conditioning effects of Δ^9 -tetrahydrocannabinol

<http://www.pubmedcentral.nih.gov/articlerender.fcgi?artid=2279017>

The diverse CB1 and CB2 receptor pharmacology of three plant cannabinoids: Δ^9 -tetrahydrocannabinol, cannabidiol and Δ^9 -tetrahydrocannabivarin
